INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories (publishers of the New Bern Directory since 1961), presents to subscribers and the general public, this, the 1964 edition of the New Bern City Directory, which includes Bridgeton, Country Club Heights and Rural Route Residents.

Confidence in the growth of New Bern's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting New Bern to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and the New Bern Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyer's Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like New Bern, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of New Bern, and the name, official personnel, nature and address of each firm and corporation in the community.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a

business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries where they are readily available for free public reference, and serve as perpetual and reliable advertisements of New Bern and vicinity.

The New Bern Out-of-Town City Directory Library

Through the courtesy of the publishers of the New Bern City Directory, a Directory Library is maintained in the offices of the Greater New Bern Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the U. S., Canada and Puerto Rico by members of the Association of North American Directory Publishers.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

NEW BERN

CENTER OF HISTORY—PIVOT OF PROGRESS

(Courtesy New Bern Chamber of Commerce)

This is the land where much of our history had its beginning, centered about New Bern, North Carolina's second oldest town, Colonial Center for business, culture, and political activity, the site of many of our "firsts." It is also a land of jet planes, trim modern boats, great modern highways and buildings--a land where the pulse of Eastern North Carolina's great new era of development is strongly evident.

New Bern looks two ways, a fact which accounts for the stability and sound character of progress which is evident here. Important strides have been made in the development of the area's mineral, timber and agricultural resources. Diversification in agriculture and industry have dominated this growth. Yet, while New Bern's aggressive citizens push on toward greater progress in business, agriculture and industry, they have kept a firm grip on the cherished traditions of their rich history, preserving the best of the past for themselves, their descendants, and for welcomed visitors who come here from throughout the world.

Tryon Palace, called "the most beautiful building in the Colonial Americas," was built in pre-Revolutionary days by Royal Governor William Tryon as North Carolina's first fixed Colonial Capitol. Later it became the first Capitol of the State. Four State Governors were inaugurated there. Restored authentically by the Tryon Palace Commission, a State Agency, through gifts and bequests of the late Mrs. James Edwin Latham, and furnished with mid-18th century antiques, at a cost of more than \$3,500,000, it is considered one of America's greatest showplaces. During the first 5 years it was opened to the public it attracted over 155,000 admiring visitors from all 50 states and 71 foreign countries.

New Bern is a sight-seer's paradise. Here are over 100 homes a century or more in age. The John Wright Stanly home, now a free library, is open daily. The Firemen's Museum (awarded the only prize by the American Association for State and Local History for the preservation of antiquities in 1957), Attmore-Oliver House, William Gaston House, Masonic Temples and nearby Fort Macon add points of interest.

Historic Tryon Palace erected 1767-70, destroyed by fire February 27, 1798, restored 1952-59. First Colonial and State Capitol in North Carolina and considered the most beautiful building of its day.

Few cities anywhere afford more complete transportation than New Bern. By air, Piedmont Airlines maintains 8 scheduled flights from Simmons-Nott Airport daily, with 3 north bound, 3 south bound, 2 west bound, giving New Bern the best, most frequent air service of any small city in the country, with

aviation gas sales and aviation maintenance. National U-Drive-It automobile facilities available at airport.

Three railroads—Norfolk—Southern, Atlantic Coast Line and Southern serve the area. Three important highways, U. S. 17, U. S. 70 and N. C. 55, intersect here. The home office for Seashore Transportation Company is here and 18 Motor Freight Lines serves New Bern.

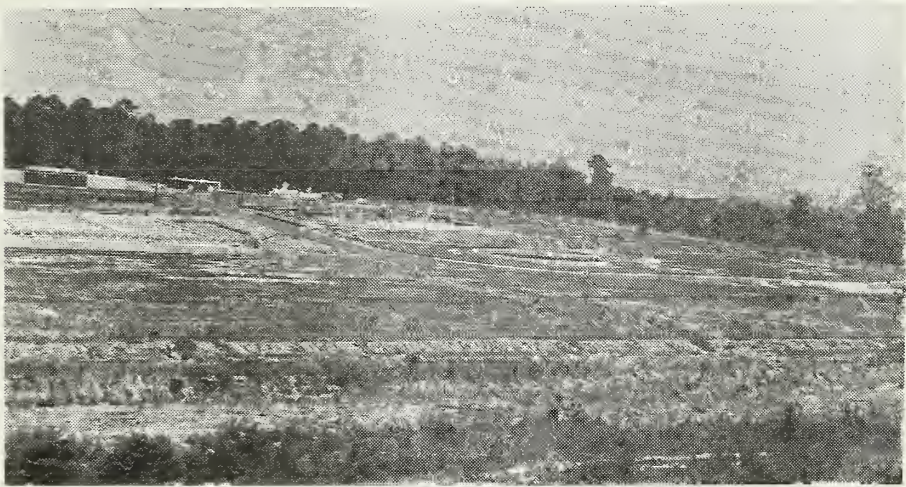

Water commerce provides freight advantages enjoyed by few cities. New Bern is served by both the Neuse and Trent Rivers, with a minimum 12 foot channel which connects directly with the Intra-Coastal Waterway and the North Carolina State Deep-sea Port Terminal at nearby Morehead City.

Marine Installations:

New Bern has three Marine facilities—The Barbour Boat Works, Inc., New Bern Shipyard, Inc. and Commodore Boats—offering construction and repair of wooden, steel and fiber glass boats, propeller reconditioning plants, a total of eight marine railways—50 to 1200 ton capacity, marine salvage and supplies, complete machine shops, all types of welding facilities plus towing services.

As County Seat of Craven County, New Bern draws many patrons from the county and neighboring counties. Its population was 11,815 by official count in 1940, with 16,467 population count in 1962. The inviting allure of the Neuse and Trent River Shores homesites has attracted many citizens, thereby creating an exodus of families adjacent to the city. Greater New Bern population, 19,096. The county official census in 1940 was 31,298, the official count in 1960 was 58,773. More than 150,000 people reside in the trading area.

There are 65 manufacturing establishments employing 2,004 workers who receive manual wages of more than \$6,000,000. The annual operating cost of the Marine Corps Air Station at Cherry Point is \$76,000,000 of which 75 per cent is represented in payrolls. County retail sales were \$72,574,867.00 in 1963.

New Bern's three banks (with branches in the county), and two Savings and Loan Associations with resources of more than \$407,158,000 gives this area a sound financial basis for expansion.

Current industrial establishments include factories for making men's trousers, ladies' dresses, three commercial and pleasure boat manufacturers,

six lumber mills, two plywood factories, cement block plant, awning and tent manufacturing company, boat trailer plant, feed mills, grain elevator, fertilizer plants, livestock market, curb market, meat packing plant, frozen foods locker, chicken hatchery, a milk pasteurization plant, ice cream factory, two bottling plants, printing firms, two aggregate quarries, and the power tool plant facility of The Stanley Works. This modern steel and concrete block brick veneered 150,000 square foot structure is fully air-conditioned with all modern conveniences for employee comfort, and it is equipped with the latest designed machinery in the field of power tool manufacturing.

Since July 1, 1947, New Bern has had the city manager form of government with a Mayor and City Manager, and one Alderman from each of the five wards. The City Manager, Chief of Police, City Clerk-Treasurer and Tax Collector are appointed by the Board of Aldermen. Craven County is governed by a board of five Commissioners representing various parts of the county with two from New Bern.

Property in the county was valued for tax purposes (50 per cent of the assessed value) Jan. 1, 1963 at \$84,242,671.00 of which \$30,291,474.00 was in New Bern.

Fifteen State and Federal District Offices are located in New Bern.

Sudan Shrine Temple has its home here, with members as far west as Durham. A \$150,000 Shrine Auditorium has been erected and is available for public programs. A \$300,000 Temple is used for offices and semi-annual reunions of Scottish Rite Masons. Meetings are also held here frequently by York Rite Masons and affiliated bodies, a \$150,000.00 Club Building has been erected on the Race Track road by the New Bern Shrine Club. Next to it the York Rite Bodies have under construction a \$200,000.00 Temple.

Located here are Good Shepherd Hospital for Negroes, a 161 bed Craven County hospital and the County Hospital Home. The City-County Health Department has a modern health center.

Numerous churches are in and around New Bern and there are many religious, benevolent, patriotic and civic organizations.

The Sun-Journal publishes two editions of its daily newspaper and The Mirror is published weekly. There are two local radio stations, WHIT and WRNB and local WNBE Television Station—ABC Network. Nearby, are two television stations serving the area with a primary signal, one NBC, the other CBS. Muzak offers a source of background music that is used by major companies throughout America.

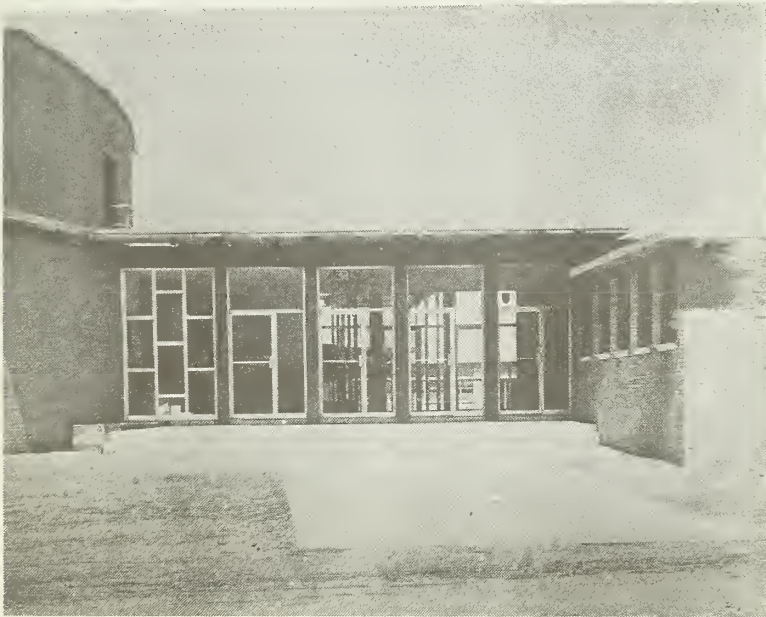

Hundreds of new homes have been built with suburban residential sections expanding rapidly. There are two low-rent housing projects, one for white, the other for colored.

Recreation is unlimited, the broad, beautiful waters of the Neuse and Trent Rivers provide the perfect setting for boating, fishing, swimming, skiing and other water sports. In addition, North Carolina's popular beach resorts are but a short distance away. There is excellent hunting in season.

New Bern people love fun, and their recreation is varied: golf at the Country Club, tennis and other outdoor sports may be enjoyed in the mild climate. There is a well organized year-around municipal recreation program, as well as lively social and civic life.

Excellent hotels, motels, restaurants and dining rooms, together with cordial hospitality is fast making New Bern into a convention and tourist center.

Seven elementary and two high schools, with exceptional faculties, give college preparatory courses plus vocational-trade and technical training. The school plants are modern in every respect and a constant building program has been under way for the past several years. New Bern with approximately 50 per cent and Craven County with 37.9 per cent of its graduates entering college rank among the highest in North Carolina.

New Bern High School

The world's largest Marine Corps Air Station at Cherry Point with its thriving civilian settlement at fast growing Havelock, is in the eastern part of Craven County, greatly strengthening the economy of the entire area. Camp Lejeune, largest all-purpose Marine Corps ground base, is in nearby Onslow County.

New Bern wears its long honored career of 254 years well. Its tradition of hospitality and genuine friendliness is experienced by every visitor whether he

comes as a tourist or a business man, whether as a casual visitor or to make his home here, he will receive a warm genuine welcome to the "Land of Enchanting Waters."

Out of Sight • Out of Mind ★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

Do your employers furnish you with
the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CAUTION

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

STREET and AVENUE GUIDE INCLUDING TELEPHONE NUMBERS and HOME OWNER SYMBOLS 1964

Including Bridgeton and Country Club Heights

Copyright, 1964, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parentheses denote old numbers.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Out of Sight - Out of Mind

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight
Insist on being well represented in its pages.

**CITY DIRECTORY
ADVERTISING
IS *National* ADVERTISING**

★ Each edition of your City Directory is widely distributed to free-reference City Directory Libraries located at the Chambers of Commerce of hundreds of other cities.

★

*Therefore your ad in the City Directory
is seen by buyers from coast-to-coast*

CASHIERS! TELLERS! CLERKS!

*Do your employers furnish you with the
latest edition of the City Directory?*

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
